

SMD Parts Counter

Magic e

Automatic 4 in 1 Counter

Reliable Smart Component Counter

Magic e Counter is the most multi functional Smart Component Counter. SMD (01005-op), Axial & Radial

Multi Fuctional Counting + 01005 (op)

Magic e offers high-quality multi-functional 4 in 1 counting. It is the world's leading product that can count SMD, axial & radial parts in one product, and can also count 01005 reels with a small tape width. Magic E is the world's only 01005 reel counter, saving customers' future investment costs.

Stable Design and Solid Body

Magic e supports a stable horizontal counting method through its engineering design. The horizontal method reduces reel bounce and provides a stable counting for reels with large widths. To ensure semi-permanent high-quality products, solid casting and aluminum materials are used, and the internal PCB is a coated module to prevent damage due to temperature changes and increase durability.

Smart Features Connecting Computer (op)

This product can communicate with a computer and a printer using the Data Link Adapter option. This allows an operator to input data into the system more conveniently and work more efficiently by transmitting counting date, time, and quantity data to the computer and printer. Available programs can be entered wherever the mouse cursor is located, such as ERP, MS-Excel, Word, Memo-pad, etc.

- SMD (2mm, 4mm Pitch)
 - Axial
 - Radial
- (4 in 1)
- Pocket Check
 - 01005 Counting

FEATURES

- Motorized 4 in 1 Smart SMD Counter (SMD_(auto), Axial & Radial_(Manual))
- Stepping motorized Auto Drive
- 2mm, 4mm~72mm SMD tape Count
- Pocket Check Missing Parts Detection
8,12,16,24~48mm easy adjustment
(Guarantee only Black color pocket type reel)
- 32bit Micro Controled
- Easy operating. 6 Multi Function keys
- AC 110~220V (50/60Hz)
- Weight : 8.0 kg
- Dimesion : 800 x 270 x 130 mm
- Packing : 830 x 300 x 150 mm, 12kg
- Origin : Made in Korea

Option

- Barcode Printer or Dot Printer Port
- Barcode Scanner for Preset
- Data Link Adapter Port for ERP
- 01005 Counting Adapter

Key point

Easy adjustment the height of pocket sensor
8,12,16,24~48mm

Axial & Radial Counting
(Manual)

Counting 01005_{inch} Parts
(2mm Pitch-op)

Q'ty Memo on Screen

Data Transfer to PC
or Barcode Printer (op)

SMD Parts Counter

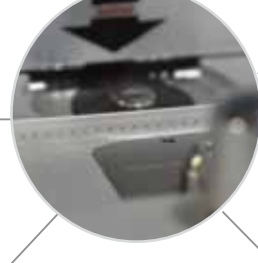

Simple Operation Keys

Count Q'ty Memory Mode
Label Print Mode

Counting
01005 inch component

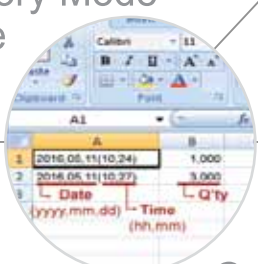

Multi Interface ports

Front USB Connector

Connecting Laptop
ERP, Excel, Word

Pocket Check
(Miss Part Detector)
8, 12, 16, 24 ~ 48 mm
