SMD Parts Counter

IMagic

3 in1 Counter *(SMD, Axial & Radial)*

USB

| MS-Excel ERP
Q'ty & Date DATA Transfer | 01005 inch Parts Counting | AJ Parts Counting | Missing Parts Detect | Barcode Scanner / Printer |

I'Magic counter is the most multi-functional component Smart counter system in the NamA Electronics korea to provide.

This machine has all in one system that can count for SMD, Axial & Radial components. Also, the functions are available to check the pocket of missing parts and the default parts. System to scan and print a barcode

It is easy for anyone to be able to control the PCB consists of an individuallzed of main board, Stepping motor, Interface Port, Keyboard as 32bit control system basis.

The product which PCB designed and produced as SMD module was to improve the quality of the envirnment by PCB coating for duality.
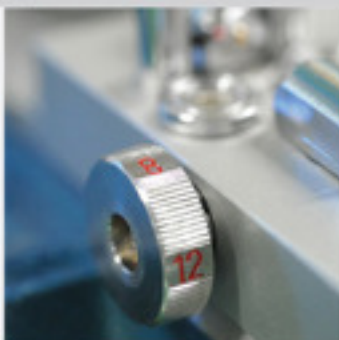

It has been designed both desk-top and moving path prupose and the counting system can also work when the place is not supported by power.

100~220V 50/60Hz free power to any country in the world without the power to change the unit can be used.

FEATURES

- 3 in 1 Smart SMD Counter (SMD, Axial & Radial)
- Motorized Type
- 2mm, 4mm~72mm SMD tape Count
- Stepping motorized Auto Drive
- Multi Port 2ea x RS-232C, 2ea x USB port
- Barcode Printer or Dot Printer Port
- Barcode Scanner for Preset
- Foot remote control for Motor
- 32bit Micro Controled
- Easy operating. 6 Multi Function keys
- 8,12,16,24~48mm easy adjustment for detection sensor
- AC 100~220V (50/60Hz)
- Weight : 8.0 kg
- Dimesion : 800 x 270 x 130

Key point

| Easy adjustment for detection sensor 8,12,16,24~48mm | Counting 01005 inch components | Memory for counting Q'ty | Anti-Static Connector | Barcode Scanner |
