Function

Since
1988

Since 1988, the component counters have been manufactured by Nama.

3 Year
 Free Warranty

The warranty covers maximum 36 months after delivery of the product. (Only Mega Model)

0%
 Zero Error Rate

We pursue 0 % "Error Rate" Count.

Stepping Motor Control

Stepping Motor control system increases accuracy.

Easy Operation 6Function Keys

Simplified functions with only 7 Keys.

32Bit Digital

32 bit PIC control system
 Faster and ideally designed to be extended.

Control Beep

You can adjust the step Beep or turn it off. large, medium and small

Free Power

110V~220V Free Power / 50~60Hz
 Internationally approved safe switching power.

Customized bidirectional High speed Motor & Sensor unit.

You can count SMD.
 (Opt : Axial, Radial)

High speed Sensor can detect missing parts through 8 .12 .16. 24mm (Skip or Stop).

Automatic alignment to the preset point and Print. Rewind to "0" Point with auto alignment.

2 x RS232c, 2 x USB Port (5V/2A)
 Dot. Bar Code Printer. Bar Code scanner.
 Bar Code Printer. Bulk Scale Interface & Mobile Phone. MP3 .etc charge to USB Port.

High Power Rechargeable Battery (7A).
 (I'Magic : Standard / Other models : Option)

Automatic Power saving.
 Automatic power turn off. not use 10min.

Prints on adhesive labels :
 Name of company, Date, count Q'ty.
 (Opt : For Dot or Bar code Printing)

NamA Electronic Industry

NamA is established in 1988. NamA distributes SMART components counting system, electronic PCB assembly products and automatic machines mainly to Korea. We have developed and produced SMD and DIP component counter for almost 30 years.

NamA's SMD and DIP components smart counter has excellent reputation for technical support, engineering design and efficient service from local branches throughout Germany, U.S.A, Japan, China and other countries. We will continue to serve with high quality of our products and extremely satisfying pre and post-sale services to our customers. Our mission is to design and manufacture state of the art products with high performance and precision through continuous investment in product innovation.
